Customized Sensory Pack

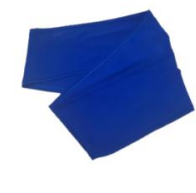

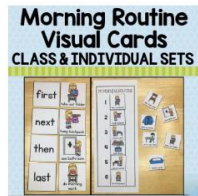

1、Get Ready Box

Recommended Ages: 3-12 years

Ideal Time Period: Morning wake-up through getting ready (6-30 minutes)

Primary Goal: Activate brain and body from sleep, establish daily routine structure

Why It Works: ADHD/Autism children often lack morning energy and struggle to establish consistent routines. This pack provides multi-sensory inputs (visual, auditory, proprioceptive) to activate their system and create a predictable, energizing start to the day.

Product Listing (13 Items)

2、 Play Box

Recommended Ages: 3-12 years

Ideal Time Period: During recess, afternoon slump, active home time

Primary Goal: Safely release accumulated energy

Why It Works: ADHD/Autism children have high energy needs and often struggle to stay focused when restlessness builds up. This activity pack offers guided movements for hands, feet, full-body coordination, eye relaxation training, breathing and balance exercises. It allows kids to naturally burn off excess energy, calm their nervous system, improve body awareness, relieve restlessness, and support better concentration and emotional regulation in daily learning and daily life.

3、 Calming Box

Recommended Ages: 5-12 years

Ideal Time Period: Any time during an emotional outburst or high frustration

Primary Goal: Process frustration, anger, and emotional outbursts

Why It Works: ADHD/Autism children often experience emotional dysregulation and struggle to calm down quickly when feeling upset, frustrated, or overwhelmed. This calming box provides gentle, safe sensory outlets that help soothe nerves, ease tension, and rapidly stabilize mood during emotional outbursts. It would have calming, regulating resources similar to our onsite sensory room (but smaller and less expensive).
